M3w-2

MOBILE POS TECHNOLOGY IN AN ENTERPRISE TABLET

The M3w-2 Enterprise Tablet offers powerful mobile POS technology designed especially for retail and hospitality environments. This high-performance, rugged device and its integrated peripherals work with all leading POS software applications and can boost efficiency and profitability.

POS Base Adds Utility
While the M3w-2 works well as a mobile, handheld device, its POS base options give it the flexibility to be a countertop POS terminal. Base options have multiple I/O ports for connection to a printer, cash drawer, Ethernet, and peripherals such as the CD-7220 customer display. A key lock secures the tablet in place. Adjustable viewing angles meet the needs of cashiers and customers, and the premium base can flip 180° for customer signatures.

Built Tough for Busy Environments
This tablet is ready for the most demanding environments. It has an IP54 sealing rating, which means it is highly resistant to dust and moisture, including spills that sometime occur in busy retail stores or restaurants.

10.1" with auto rotation function | Rotatable 2D barcode scanner | Integrated Bio reader (Optional)

SPECIAL FEATURES

- Windows 10 IoT LTSC
- Intel APOLLO LAKE CPU platform
- Wireless communication capabilities
- IP54
- Easy all-day use for indoor and outdoor
- Variable and flexible functionality by options

OPTIONAL

- 2D Barcode scanner
- Encryption-capable MSR, EMV reader, Bio reader, NFC reader
- WWAN communication
- POS Base
  (Charging, LAN, USB, Cash drawer and Com port)
